Books

His Image by Gerald Moonen, 64 pp, softcover, \$29.95

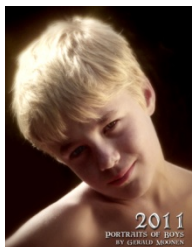

Gerald Moonen is a talented New Zealand artist and photographer. He has composed for MindGlow Media a tasteful montage of his photographs of boys and an exposition of his personal philosophy on the esthetics of his work. We have printed his images into a beautiful 6 ½" x 8", 64-page book. Two of the many images in the book are shown on the right. Please note that many of the photos show nude and semi-nude boys with some full frontal nudity. Though depiction of nudity is legal, this may nevertheless be an issue with some. An alternate version is available

on demand for those who do not want depiction of full nudity.

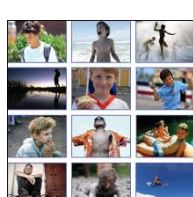

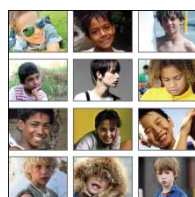

Calendars

2011 Calendar by Gerald Moonen, \$17.95

This beautiful calendar is 8 ½" x 11" in size with a spiral binding that allows easy and neat turning of the monthly pages. Each calendar page displays a different, non-glossy borderless portrait. Though the binding will not spoil the calendar images, some may wish to dispense with the spiral. If this is your preference, please let us know when ordering. Though we do not recommend glossy photo printing, those wishing this type of finish should add \$3 for each calendar ordered.

2011 Calendars by Loren Robb, \$14.95

Loren, the author of *Kolya*, in addition to being an excellent writer is also a very talented graphic artist. The calendars he has produced should provide esthetic pleasure long after 2011. The thumbnails do not do justice to the full 8 ½" x 11" pages but are included to give an overview or each calendar. Each is spiral bound but if no binding is desired, please state so with your order.
